

## OUR FOUR-LEGGED FRIENDS ARE TOP OF MIND FOR DEVELOPERS

Dec 31, 2018

From high-end pet clothing and one-of-a-kind dog houses to amenity-driven pet resorts and pet-friendly residential developments, businesses among all industries are beginning to understand the importance of catering toward pet owners and their four-legged companions.

Across the nation, these residential developments have designed and constructed luxurious homes with amenities geared toward pet owners – most popularly, dog owners.

### FIFTY THIRD AND EIGHTH MANHATTAN, NEW YORK

This Hell's Kitchen new development is the go-to condominium for New York City pooches. Boasting its own private pet park, doggy residents of Fifty Third and Eighth won't be bothered with the canine commoners of NYC's public dog parks. The building's concierge is also happy to coordinate pet-friendly activities in the city, such as pet spa outings and custom dog walks for the truly pampered pup.
